

**Date: April 2, 2022**

**To: Lake Shore Electric customers and manufacturing reps**

**Subject: End-of-Life Status 7650 Micro Logic Controller**

Dear Valued Customer:

Effective dating back to January 1, 2022, Lake Shore Electric placed the 7650 Micrologic Controller in "Legacy" status. 7650 Micrologic Controllers will no longer be available in new product sales. Production and inventory are allocated to support existing installations' service life with manufacturing dates within the past five years.

Customers with active warranties for the 7650 Micrologic Controller will continue to receive service and support from Lake Shore Electric through the validity of the warranty agreement.

We apologize for any inconvenience the product moving to "legacy" status may have caused. With our broad product offering and support, we are confident we can solve your current and future application needs.

Kind Regards,

Andrew Vrotsos  
National Sales Manager
