

## Transfer: Manual Load Interrupter Transfer Switch

### Description

Lake Shore Electric's Medium Voltage Load Interrupter Manual Transfer Switch is offered in 5, 15, 27, and 38kV class designs. Load interrupter manual transfer switches offer a simple, robust design that does not require control power. Designs can be enhanced with, but not limited to, primary utility metering cabinets, electrical assist, over-current protection, and metering/monitoring systems.

### Core Features

- Built-In Accordance to ANSI Standards
- Fully Rated Silver Plated Copper Bus
- Simple Kirk Key Interlock Scheme
- Viewing Window for Visual Verification of Isolation
- Access Door Interlocked with Switch Operator Handle
- NEMA 1 or 3R Powder Coated Enclosure
- Non-Fused, Clip-In, or Bolt-In Fuses

### Optional Features

- Custom Bus Connection for Transformer Coordination
- Local Utility Specific Metering Compartments
- Electrical Assist
- SCADA Outputs
- Customer Load Metering
- Surge Arrestors
- 200A Load Break Bushing Wells (IEEE Std 386)
- 600A Non-Load Break Bushing Well (IEEE Std 386)
- Stainless Steel Enclosures (304 & 316)
